EVOLVED
Love is Back

Product Specifications:

Category: Vibrator
Material: ABS+Silicone
Size: W: 2.86", H: 9.14", D: 2.69"
Battery: 102040C Lithium polymer battery 3.7V 850mAh
Voltage: 3.7V
Number of Vibrations: 5 frequency sliding; 8 frequency vibration
User time: The highest frequency works for 40 minutes
Sound Level: 55dbA

CHARGING INSTRUCTIONS

This vibrator arrives with a partial charge between 30 - 50% of full power, so it recommended to charge it fully before use. Connect the USB plug into the USB port of your computer or other output and the other end of the DC charger into toy's input.

The initial charge will take about 1 hour to complete, and subsequent charges will take about 2.5 hours to complete. The indicator light will flash while device is charging, and remain solid when toy is fully charged. There is no danger of battery damage by overcharging, but it's recommended not to overcharge for long periods of time.

Charge lasts for about 70 minutes of play time at the lowest level of vibration, and about 40 minutes at the highest level.

This toy operates at a sound level of less than 55db and a voltage of 3.7V with a 850MAh battery.

INSTRUCTIONS FOR USE

This toy has an easy to use three-button control panel. Each motor and the sliding function are controlled separately by a dedicated button.

To turn on the shaft motor, press the Top Button for at least 2 seconds. It will begin vibrating at the lowest speed. Press this button again to cycle through 8 different speeds and functions. To turn this motor off, press the button for at least 2 seconds.

To turn on the sliding ring function, press the Middle Button for at least 2 seconds. It will begin sliding up and down at its lowest speed. Press this button again to cycle through 5 different sliding speeds. To turn this sliding function off, press the button for at least 2 seconds.

To turn on the clitoral stimulator motor, press the Bottom Button for at least 2 seconds. It will begin vibrating at the lowest speed. Press this button again to cycle through 8 different speeds and functions. To turn this motor off, press the button for at least 2 seconds.
