CHARGING INSTRUCTIONS

This vibrator arrives with a partial charge, so it is recommended to fully charge before use. Connect the USB plug into the USB port of your computer or other output and the other end of the DC charger into toy's input. The DC charger input of this toy is located below the control panel area near the curved base of the toy.

Initial charge will take about 1 hour, and subsequent charges will take about 1.5 hours to complete.

The indicator light will flash while device is charging and remain solid when toy is fully charged. There is no danger of battery damage by overcharging, but it's recommended not to overcharge for long periods of time.

Charge lasts for about 4 hours of play time on the lowest level of vibration, and about 3 hours on the highest level.

Vibration intensity decreases as the battery charge depletes.

This toy operates at a sound level of less than 55db with a rechargeable 420mAh lithium battery at 3.7V.

INSTRUCTIONS FOR USE

This toy has a convenient 2-button control at its base.

To turn motor on, press the top Power Button for at least 2 seconds. The indicator light will turn on and vibration will begin at its lowest frequency.

Once the toy is on, use the bottom Function Button to cycle through 7 vibration speeds and functions. The indicator light will flash once for every new speed or function.

To turn motor off, press the top Power Button for at least 2 seconds.
