

GP DATEX MINI SKIRT

This Datex mini skirt in shiny black reaches till halfway the upper leg and fits tightly around the body thanks to the elastic waist band and the nature of the Datex material: a latex layer on a layer of stretchy knitted fabric. At the hem it is slightly narrower than on the hips. The skirt combines great with a body, jacket, top or bra from the Guilty Pleasure Datex collection, for an exciting outfit.

Datex is a revolutionary material made of natural rubber latex, printed on an elastic knitted fabric. The result is a very stretchable material with the looks and touch of latex on the outside and the softness and comfort of the stretchy fabric on the inside.

Datex is comfortable to wear, it has that exciting look of latex, but not the disadvantage of being sticky and sweaty. It is easy to put on or take off without any additional dressing aids or conditioners. Datex provides great comfort, softness and flexibility, and at the same time the fetish look and touch that make latex so unique and appreciated.
