

GP PRINTED DATEX STRIPED DRESS

A sexy and elegant eye catcher, this midi dress from the Guilty Pleasure collection with red twirling stripes made of latex printed on a soft stretchable knitted fabric. The transparent black fabric and the red Datex follow the body curves smoothly. The knee long dress is sleeveless, has a round neck line and no zipper or buttons. Thanks to the elastic material it is easy to put the dress on or take it off.

Datex is a revolutionary material made of natural rubber latex, printed on an elastic knitted fabric. The result is a very stretchable material with the looks and touch of latex on the outside and the softness and comfort of the stretchy fabric on the inside. The unique features of this material offer unlimited and revolutionary possibilities in the production of the clothing. These latex garments can be sewn in a traditional way without the gluing process as with latex. What's more, the seams are stronger thanks to the unique quality. This means hardly any customer complaints about defects
