

## GP PRINTED DATEX STRIPED TEDDY

This body from the Guilty Pleasure collection has a striped latex print in a sexy open pattern on a transparent knitted fabric that is highly elastic. The red horizontal stripes are printed wider apart at the bust and will show more skin through the transparent black fabric when it is stretched out more by the breasts. The material is flexible and stretchable, which ensures a great wearing comfort. The body is sleeveless, has a round neck line and no zipper or buttons. Thanks to the elastic material it is easy to put on or take off. This printed Datex body combines beautifully with other items from the Guilty Pleasure Datex collection.

Datex is a revolutionary material made of natural rubber latex, printed on an elastic knitted fabric. The result is a very stretchable material with the looks and touch of latex on the outside and the softness and comfort of the stretchy fabric on the inside. The unique features of this material offer unlimited and revolutionary possibilities in the production of the clothing. These latex garments can be sewn in a traditional way without the gluing process as with latex. What's more, the seams are stronger thanks to the unique quality. This means hardly any customer complaints about defects.
